Express.js| React| Full Stack| API Development

QUALIFICATION SUMMARY

With over three years of experience in self-taught full-stack development. My expertise lies in architectural design, API development, and leveraging advanced research skills with a strong drive for self-motivation to solve complex problems. While my greatest accomplishments are yet to come, my journey has been marked by a dedication to continuous learning and improvement. I am deeply committed to contributing positively to development teams, aiming to drive projects to new heights through collaboration and innovation.
